PLAYER REPORT

Name: melina Dupont

Age: 20 year

Testdate: 28-10-2026 16:14:10

Filtering

The extent to which you are able to immediately distinguish between minor and major issues during the game. A high score on this ability contributes of being capable of maintaining the overview and focus your attention on the important things. On the pitch, you are likely to play efficiently and on a constant level, even in complex or chaotic game situations.

Speed of action

The speed of your simple and routine actions. A high score on this ability reflects that someone is capable of executing quick actions, making rapid decisions and keeping up a fast game pace. On the pitch, you are likely to execute simple decisions relatively fast, by turning on the autopilot.

Resiliency

The extent to which you can keep up performance under an increasing amount of pressure. A high score on this ability contributes to stress resilience, grit and perseverance. On the pitch, you are likely to keep your head cool and you keep on performing well, even when being exposed to stressfull situations, when things get complicated or when there is a lot of time pressure.
